The screenshot shows the jQuery UI homepage. The header includes the jQuery UI logo and a navigation bar with links: Plugins, Contribute, Events, Support, JS Foundation. A donation banner is present. The main content area features a sidebar with 'Interactions' (Draggable, Droppable, Resizable, Selectable, Sortable) and 'Widgets' (Accordion, Autocomplete, Button). The main text describes jQuery UI as a curated set of user interface interactions, effects, widgets, and themes. A 'Download jQuery UI' section highlights version 1.12.1, with a 'Custom Download' button circled in red. Below this, 'Quick Downloads' are listed: 'Stable' (v1.12.1 for jQuery 1.7+) and 'Legacy' (v1.11.4 for jQuery 1.6+).

The screenshot shows the jQuery UI Download Builder page. The header is identical to the homepage. The main content area is titled 'Download Builder'. It lists 'Quick downloads' for 'Stable (Themes)' (1.12.1 for jQuery 1.7+), 'Legacy (Themes)' (1.11.4 for jQuery 1.6+), 'Legacy (Themes)' (1.10.4 for jQuery 1.6+), and 'Legacy (Themes)' (1.9.2 for jQuery 1.6+). Below this, a 'Version' section shows four radio buttons: '1.12.1 (Stable, for jQuery 1.7+)' (selected), '1.11.4 (Legacy, for jQuery 1.6+)', '1.10.4 (Legacy, for jQuery 1.6+)', and '1.9.2 (Legacy, for jQuery 1.6+)'. A 'Components' section is partially visible at the bottom.
